Industrial look in your interior

Follow the latest trend in interior design; the industrial look! How to combine this with architectural single glazed walls? Maars has the answer: Carré.

Using this system, you can create an industrial look on architectural walls of all thicknesses. Grids, horizontal or vertical muntins: the options are endless!
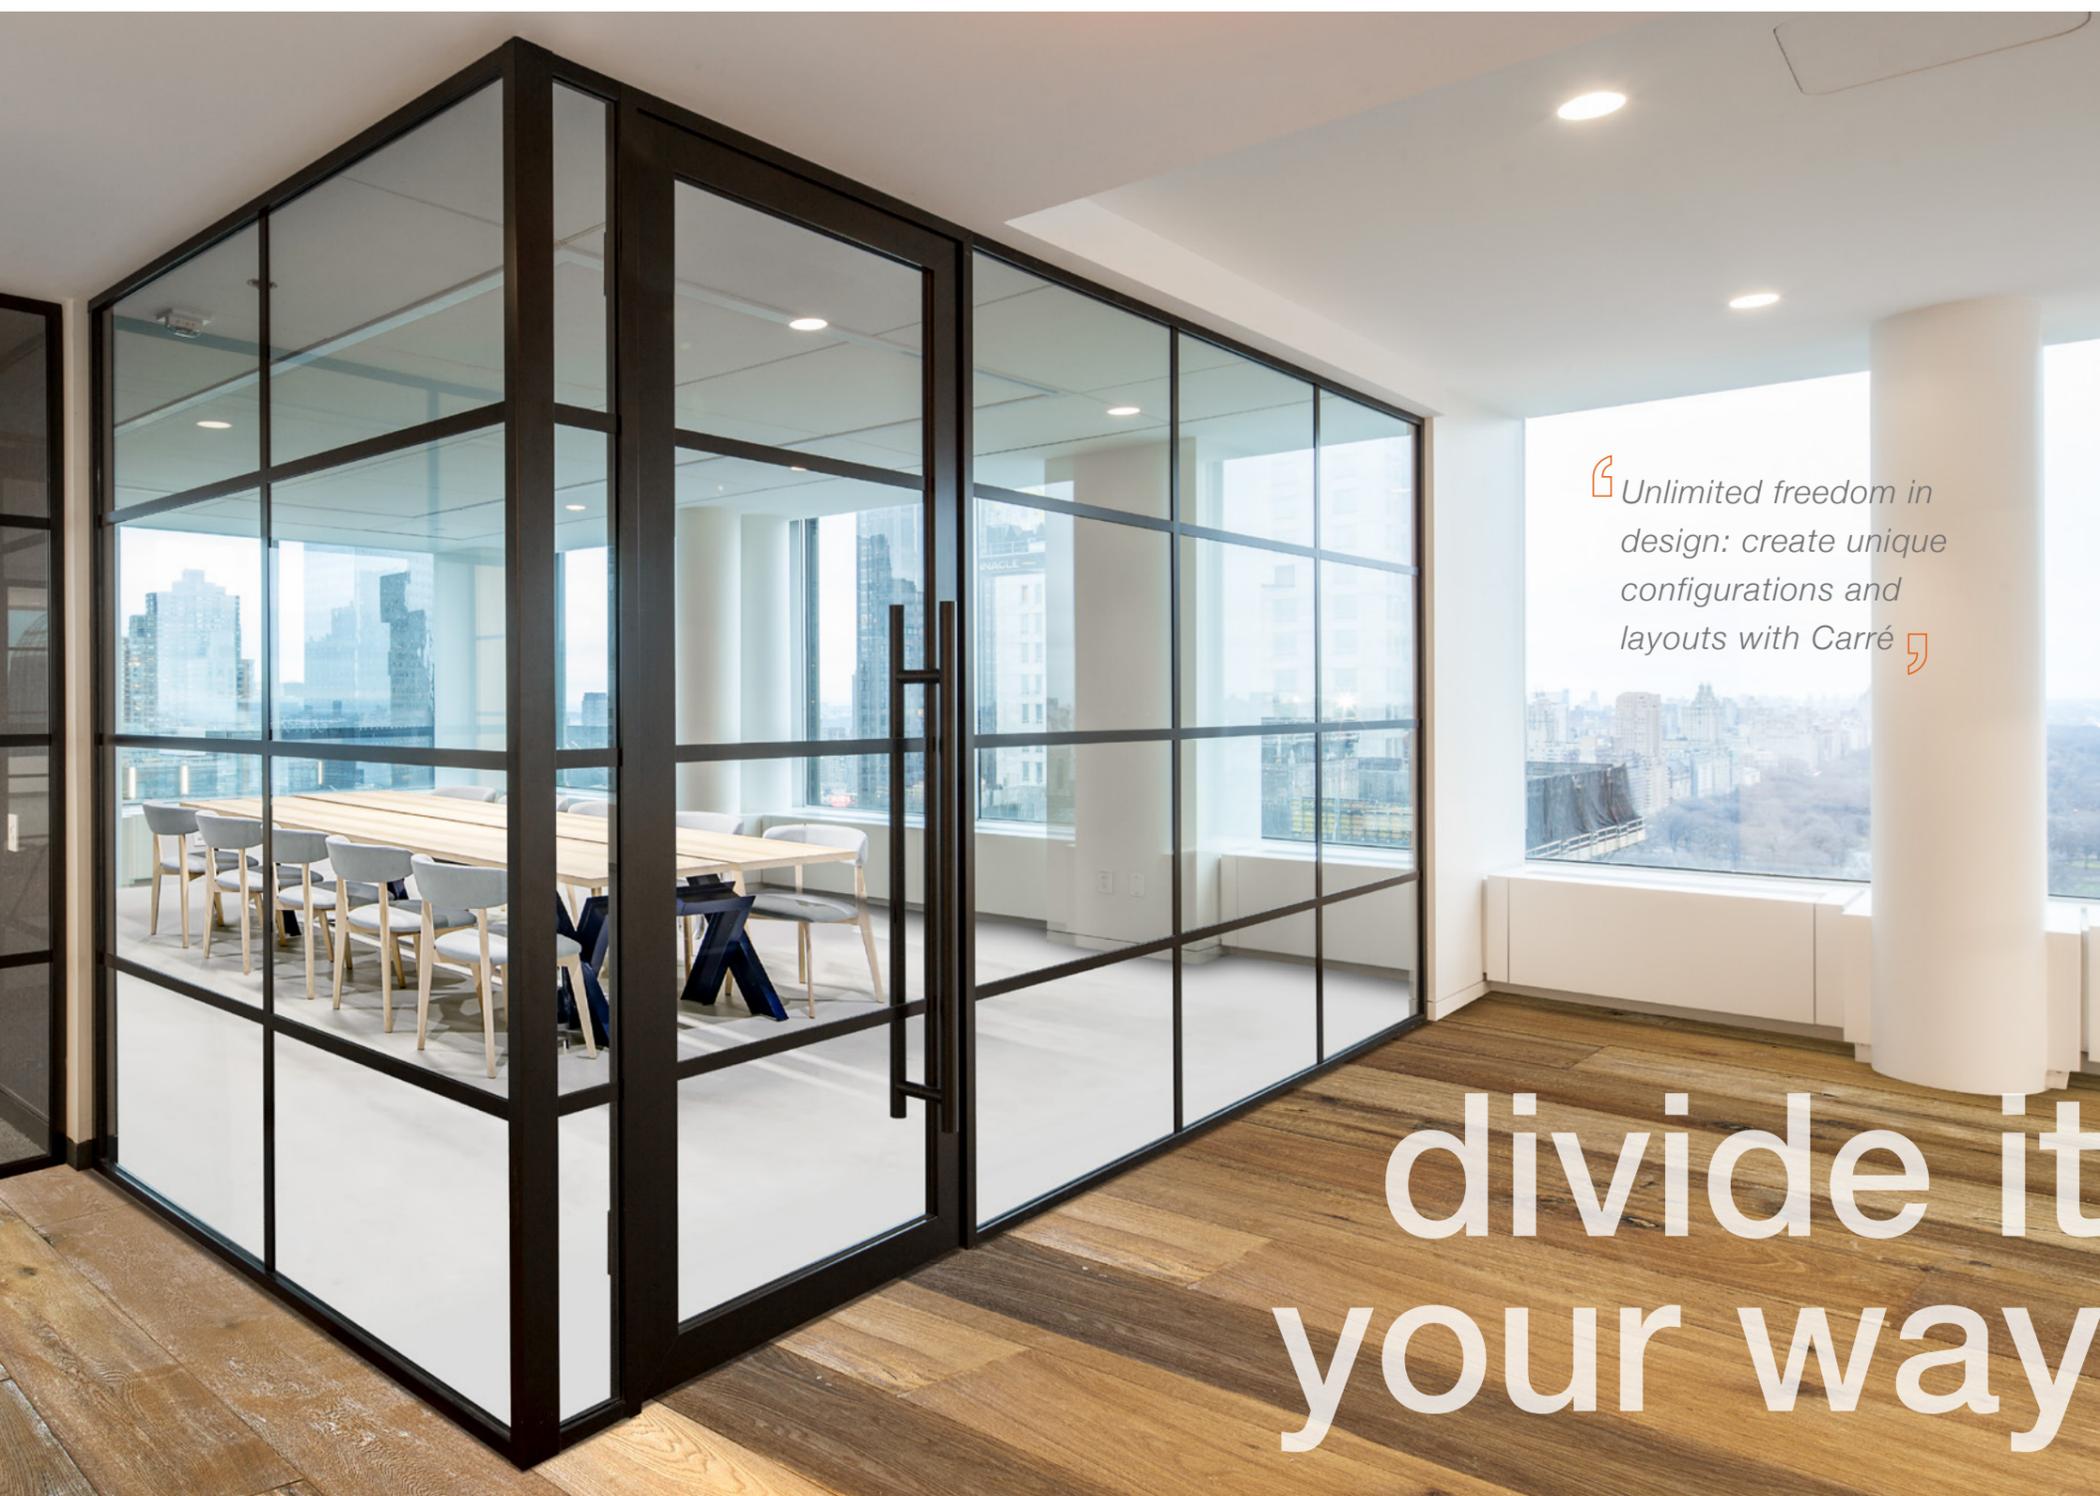

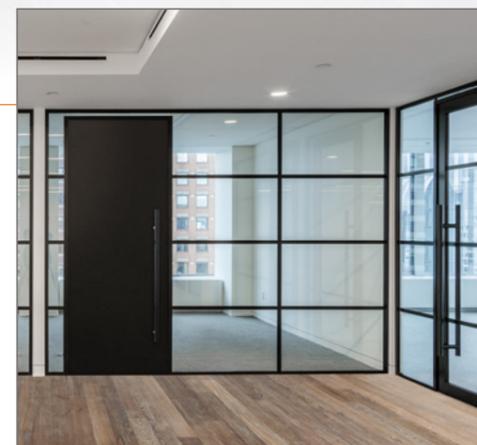

The solution for every interior

Until now, there was a lack of products on the market to create industrial looks in your interior by using architectural walls. But that was before the introduction of Carré.

- The ideal temporary or flexible solution
- Movable glass partitions with muntins
- Satisfies all functional requirements

Continous design for walls and doors

After intensive testing in order to create the right industrial aesthetic on all glass thicknesses, Maars has introduced two unique solutions under the name Carré.

- Movable properties are maintained
- Can be applied to walls and doors
- The result is one cohesive design

Unlimited freedom in design: create unique configurations and layouts with Carré
